Subject: RE: time for a call this afternoon?

Hi Phil,

Talked to Rick about the agenda. On the COO/COE issue, we'd rather offer Ray a separate forum for that discussion, if follow-up is desired. We'll address Ray's topic on slow pace of tolerance documents and other FR Notices. Once you forward Kelly Hoskins' pet product topic, I will share with RD for consideration. Per our discussion earlier today, I will raise the issues in the email below not as a substantive report out (because we have received no examples) but more as a reminder to engage EPA between these meetings so that those process issues can be robustly analyzed. Part of that falls on me to reach out soliciting input.

The agenda will provide a spot at the beginning for PRIA 4 report out (you, Steve, Beau), and at the end for a discussion of reg reform (Rick). Basically Rick is interested in what was submitted by the different trades, their priorities and ideas.

I'll send the call-in information on Monday, along with the final agenda and ground rules. I can send the ground rules and call-in info tomorrow if getting that earlier would be helpful.

Thanks! Steve

Hi Phil,

Just want to touch base about the PRIA stakeholder meeting next week. At the last meeting in March, the following issues were raised included on the agenda but with the caveat that no examples had been provided and therefore they would be tabled until the next meeting:

- predecisional letters being sent by EPA at the 11th hour or not at all, the applicant not having enough time to respond before the PRIA due date, with result being a negotiated due date.
- EPA reviewers applying criteria reflective of revisions to PRN 98-10 without that PR Notice having been put out for public comment

To my knowledge, no examples have been provided to the EPA since then. Have you heard anything from your stakeholders on either of these topics? I know Abby raised the issue of the predecisional letters.

I'll be meeting with Rick this afternoon from 4-4:30 and the meeting agenda is one of the topics we will be discussing. Are you available for a quick call after that but before 6? I am also in tomorrow morning, or free this afternoon up until 4 with the exception being 1:30 – 2pm.

Thanks! Steve
